

NGB Support Guidance for the Community Sports Coach Scheme

Sport	Volleyball																		
NGB deployment focus for the Community Sports Coaches linked to the NGB player pathway and relevant development initiatives	<p>EVA Youth Development Zones</p> <p>EVA supported programs of work in junior volleyball. To receive NGB support each zone produces a development plan outlining proposed structures, key personnel (development officer, coaching, admin) and measurable targets. Demonstrated links between local school networks (primary & secondary), clubs and local authorities are central to each zone. Each YDZ is fundamentally committed to operating within the recommendations of the EVA Technical Model and developing the more talented individuals via the National Talent Development Programme that operates at U15 and U17 within each region.</p>																		
Minimum NGB coaching qualification for employed coaches	<p>EVA Level 2 – Currently a level 2 coach will have a sound understanding of all elements of the technical model including fundamentals, volley sport, mini-volley and super mini-volley (gained through Level 1). They will also be familiar with the progressive development of the 6 a side competitive format of the game with particular reference to youth related issues.</p> <p>N.B. Would also recommend community coach development in the areas of child protection, mentoring, reflective practice etc where appropriate.</p>
