

How Much Can I Apply For?

The minimum amount you can request from Sport England is £10,000. If your project requires less than £10,000 then you should consider applying to Awards For All at www.awardsforall.org.uk. There is no maximum amount you can apply for, but you must ensure that you have taken into account the information given in your Region's priorities for funding. We also strongly recommend that you consider our guidance "availability of funding."

If your project covers more than one region, you should apply to the region where the majority of those who will benefit from the project are based. If your project covers three or more regions, then you should apply for a "national" project.
