

Student resources Sport England receives enquiries on various aspects of sport in England, particularly from those studying sport. We are not able to provide answers to these questions, but the following links will help you use the website to find answers to some of the most common enquiries.

Please note, however, that we do not produce information on individual sports as each sport has a governing body (anchored link to the National Governing Bodies section) responsible for the organisation of the activity, including national and local provision.

Alternatively, search the [Sports contacts database](#) for more information
